Re: AOSA Rules

Dear Cindy:

At the annual mid year meeting of the Oregon Seed Trade Association the membership approved two motions affecting AOSA.

The first one is unanimous approval supporting AOSA's rule proposal for testing coated seed.

The second one is unanimous approval supporting the AOSA rule proposal for marker based testing on ryegrass.

We hope you will pass this on to the proper persons in order to get these proposals approved.

Thank you for the opportunity to present our support of these proposals

Sincerely,

Dennis Hays
Executive vice president
